

# Changes to SHARS Program FY 2022

## NPI & Medicaid Enrollment

Related Services (RS) prescriptions and referrals must include a NPI and be enrolled in Medicaid to bill/authorize billing by November 1, 2022.

## IEP Ratio

Parental consent required for inclusion in the IEP ratio. Further clarification needed on how this will be applied.

## OT & PT Prescriptions

OT & PT prescriptions must include maximum billable amount.

## RS Prescriptions for Therapy

Review your prescriptions and referrals to address compliance to be sure they will support your billing of RS therapy.

# SHARS Program

Changes are effective November 1, 2021, and impact all areas of your SHARS Program. Billing will see an impact immediately. Are you ready?

## Specialized Transportation

Be sure to document both driver and PCS on bus. Clarification on changes coming from HHSC soon.

## Documentation

New requirements for documentation and retention of documentation impact all SHARS areas. Be sure you know them.

## Audiology

Coding for Audiology has been spread out to various codes. CMS has not approved 504 billing at this time.

## 7 Days to Document

Not sure how "day" is defined yet. Begin implementation now. Plan how you will be in compliance.

*Based on Available Information as of September 14, 2021*
